

## FOUR REASONS WHY

# THE TRI-CITY IS THE PLACE TO BE

Over the past years, **Gdąnsk, Gdynia** and **Sopot** (locally called the Tri-City) have seen an increasing amount of large companies setting up production facilities in the region. Tri-City is quickly becoming a well-established business hub attracting companies from all of Europe. Here are four reasons why.

**LOCATION.** Geographically the Tri-City is located perfectly for producing companies. Situated along major transit routes, Gdąnsk, Gdynia and Sopot serve as the link between the northwestern parts of Europe and the rest of the continent. The seaports of Gdąnsk and Gdynia are two of Poland's major ports, and the only ports in the Baltics with direct connections to southeast Asia. Finally, the airport of Gdąnsk has a wide range of connections internationally making it easy to travel in and out for business.

**EDUCATED WORKFORCE.** With almost 20 universities and over 70,000 students, the Tri-City is one of the most well-educated areas in Europe. The high living standards and growing amount of companies in

the area has made it an attractive place to live, which makes it easy for companies to find skilled employees.

**STRONG GROWTH.** Large companies relocating to the area and a strong growth over the last decade has made the Tri-City a very desirable investment location. Especially the business districts of Gdąnsk and Gdynia are seeing large investments being made in modern office hubs, skyscrapers and renovated tenements. With a strong startup culture, investments in the area are bound to keep increasing, and Tri-City to keep growing.

**CULTURE.** When business is not calling, Tri-City has something for everyone. An interesting history dating back a thousand years, great food, sand beaches and a rich nightlife are reasons enough to visit the area. Fun fact: For half of its history Gdąnsk has been known as Danzig, and was the Hanseatic League's largest city during the 15th and 16th century.

There are no limits to the development of Tri-City and PanLink is proud to be part of the process. Our leading edge production facilities are located in Tczew, just outside of Gdąnsk. If you wish to learn more about our facilities and what we can offer, please contact us.
